

Freight Brokerage

More than two decades in the transportation industry translates into an extensive network of relationships with carriers and shippers throughout the lower 48 states and Canada. That's the value of TST Logistics' freight brokerage services.

It's more than a quick commission to us. It's about connecting people we know we can rely on to take care of customers with urgent needs. Every day we share our knowledge of the industry, matched with our unique resources, to put together time-and dollar-saving shipping arrangements that would have otherwise been missed. And one missed opportunity can result in costly shipping fees that could have been significantly reduced.

Before you make a decision on your next TL shipment, call TST Logistics to see if we can save you time and money.

The TST Advantage:

- ▶ 20+ years in the business
- ▶ Extensive network of carrier/shipper relationships
- ▶ Serving 48 states and Canada
- ▶ Cost and time savings

Looking for a reliable logistics partner? WE KNOW THE WAY.
